STEPHEN BAYLISS – ASTROLOGY OF THE TIMES

OVERVIEW

Part 1 – The year of 2020 – the conjunction and effect of Pluto/Saturn and Jupiter in Capricorn

- Question time and discussion

Part 2 – The end of 2020 – The Great Conjunction – Jupiter and Saturn in Aquarius

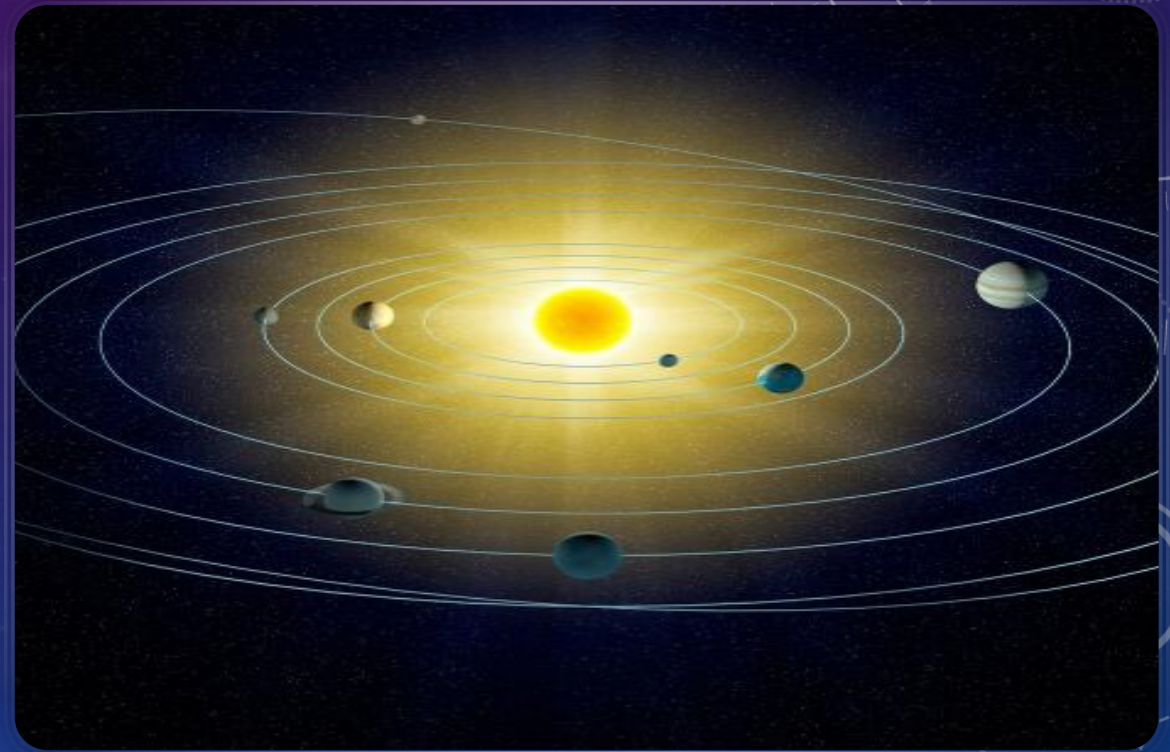

- Question time and discussion

Part 3 – Some of the major transits of 2021 and beyond

- Question time and discussion

PLUTO - SATURN - JUPITER

- A little bit about Pluto.....and in Capricorn. The GFC, death, power and corporations, big businesses, Ray 1....
- A little bit about Saturn....and in Capricorn. Home of Saturn in Capricorn, restriction, responsibility, authority and authoritarianism, karma, timing, structure, Ray 3....
- A little bit about Jupiter....and in Capricorn. Education, travel, law, exaggeration, excessive, truth, Ray 2.....

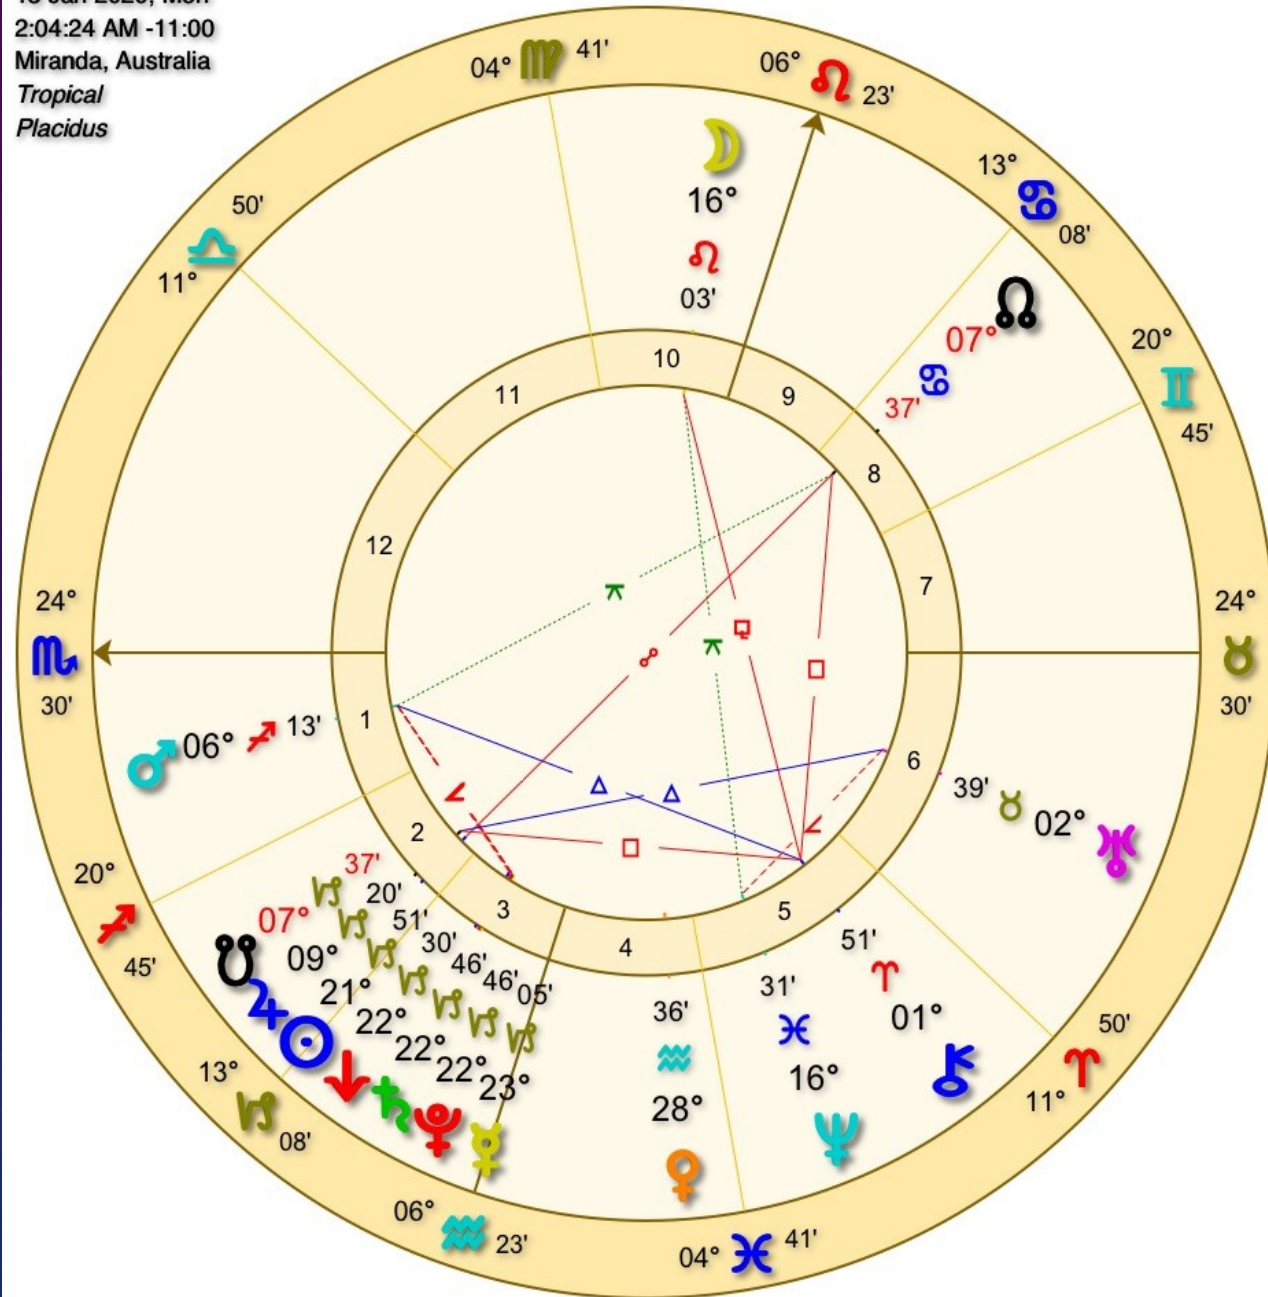

TIME FRAMES OF PLUTO - SATURN – JUPITER IN CAPRICORN

- 13th of January – Saturn conjunct Pluto in Capricorn at 22 degrees. The Sun was also conjunct, highlighting the expression and magnification of this transit. This was pretty much the start of the presentation of COVID 19 expressing out
- 23rd of March - Saturn moved into Aquarius and stayed there until the 3rd of July before it retrograded back into Capricorn. During that period, we saw the beginning of social restrictions, track and tracing, lockdowns, closing of businesses, masks etc. Of course, it has continued, on and off, in all areas of the world. Initially there was the sense of let's do this for others, showing the response to Saturn (responsibility) energy in Aquarius, but then it turned into mandatory
- From the 3rd of July, Pluto, Saturn and Jupiter were all retrograding together in Capricorn until one by one they all stationed and then began moving forward by the 5th of October, again moving toward each other into a tighter orb. By the time of the US election, they were back within 5 degrees, highlighting again the power of politics, big business, corporations, authority, money, power, truth, change, transformation and I dare say – spiritual initiation

MARS IN ARIES SQUARE TO THE PLANETS IN CAPRICORN

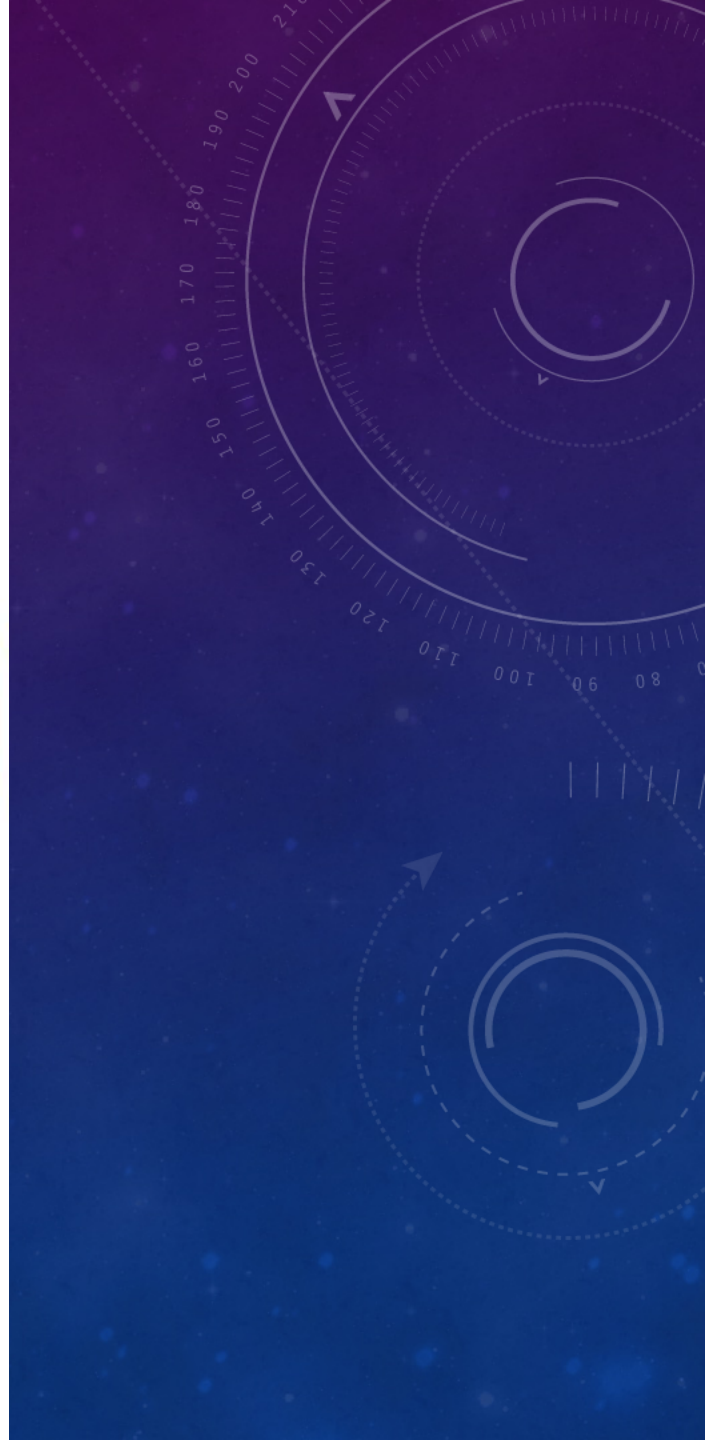

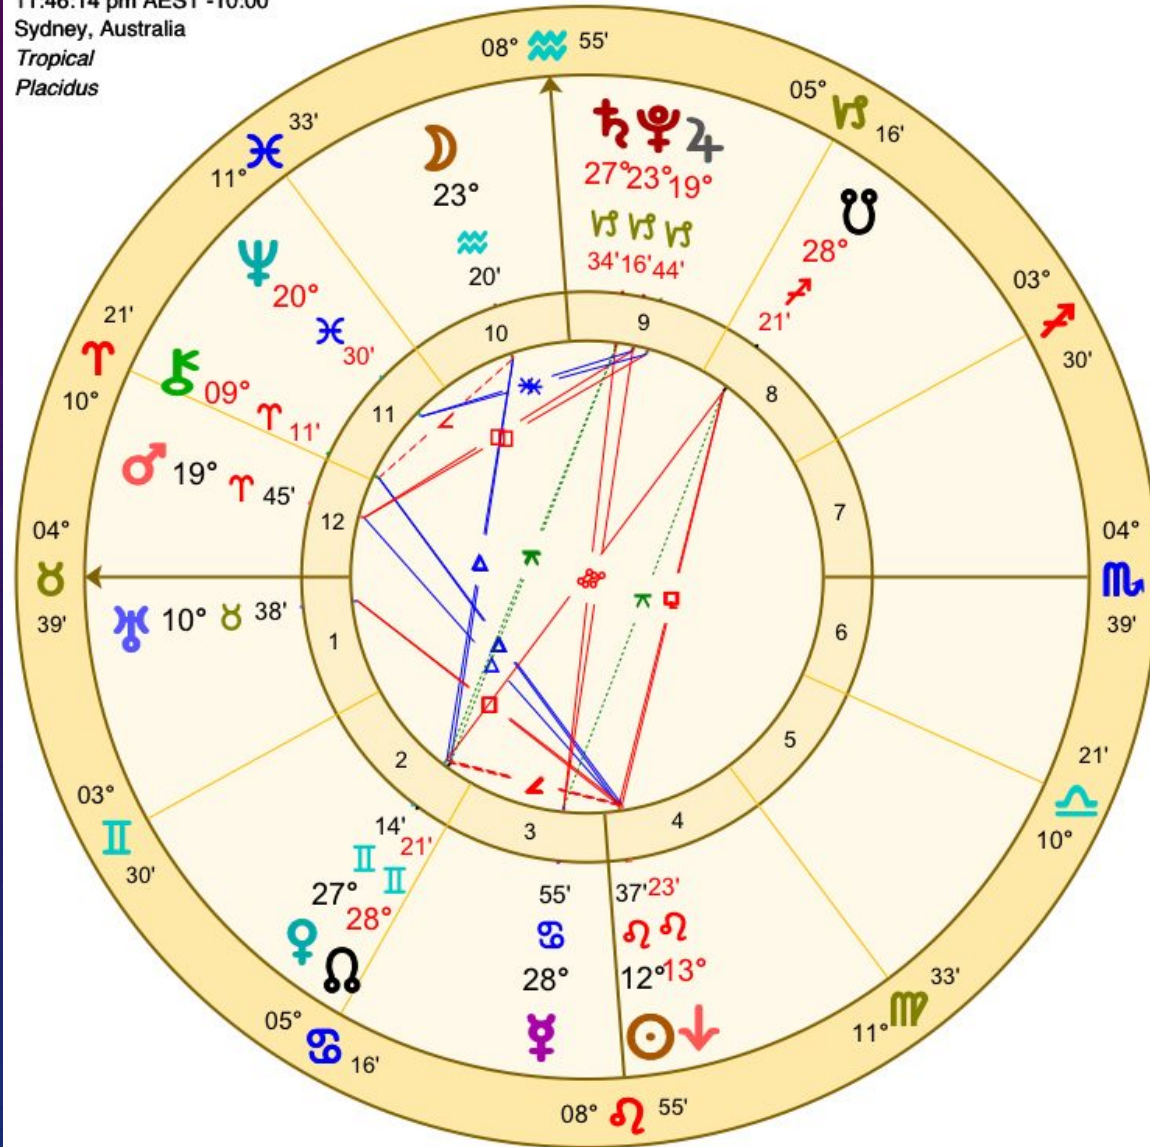

- Started 4th of August, went past the three planets in Capricorn, retrograded back past the three planets, stationed, and then from the 15th of November, is on its way back towards them now
- This time though Saturn and Jupiter have pulled away, just leaving Mars to square Pluto (December). Expect power battles and conflicts, perhaps to the current information suppression, forced lockdowns and closing of businesses, leading to groups of people looking to stand in their power and stand against authority

SOME BACK GROUND INFORMATION

- Jupiter joins or conjuncts Saturn every 20 years, usually, though not always on the 20-year mark – 1980, 2000, 2020 etc
- Jupiter takes 12 years to go around the zodiac and during that time, Saturn keeps moving, so it takes another 8 years to catch up to him
- The last time the great conjunction was in the sign of Aquarius was on Jan 7th, 1405
- This will be the closest either have been to the Earth since 1623
- The last time they were together was at 23 degrees Taurus in 2020, so this cycle of the last 20 years, anchored in Taurus, is closing out

JUPITER/SATURN RELATIONSHIP

- Jupiter expansive – Saturn restrictive – opposites attract or repel?
- Jupiter as the Soul ruler of Aquarius – Saturn as the co-ruler with Uranus
- In mythology, Jupiter (Zeus) was born from the union of Kronos (Saturn) and the Earth
- These 2 planets are the biggest planets in the Solar system. Even with just the mass of the planets alone, the coming together of them in close proximity creates force. But imagine the consciousness aspect of 2 of the most influential planets in terms of astrology and astronomy coming together

AQUARIUS

The association with the sign of Aquarius

- New age
- Collective groups of people
- The principle of sharing
- Collective thinking
- No ruling authority
- Group focus
- More tribal decisions
- Technology
- On the edge of the circle - the fringe

JUPITER AND SATURN IN AQUARIUS – ESOTERIC AND SYMBOLIC POSSIBILITIES

- Some believe that the Star of Bethlehem was perhaps a conjunction between these 2 planets. Besides Venus - Jupiter is the brightest planet in the solar system and Saturn is also visible to the naked eye
- The three wise men saw the star of Bethlehem, which is said to have led them to know that the King of Jerusalem had been born and so they set off to find Him
- The connection of 3 is very important with many things symbolic - triangles, 3 rulership's, the Father the Sun and the Holy Ghost, the Holy Trinity
- A birth of a new saviour or the return of the Christ, in line with the new incoming energies coming into the Earth

JUPITER AND SATURN IN AQUARIUS – ESOTERIC AND SYMBOLIC POSSIBILITIES

- Their coming together is hard to miss. It is an event which we can and will see for a sustained period, meaning it will be very much in our consciousness
- Both planets represent the social aspects in a chart reading. We expect continued social change, especially with large groups of people
- The degree that they will be coming together is important – 0 degrees – in the first part of the constellation of Aquarius. I believe that this shows an anchoring in of energies. Like Aries is the start of the zodiac – these 2 planets are coming together at 0 degrees Aquarius, a beginning of a new cycle
- The timing of it – on the Summer/Winter solstice

LOWER MANIFESTATIONS OF THE GREAT CONJUNCTION IN AQUARIUS 2020

- Continued and increased social pressure (Saturn) to conform to social thinking
- An increased and expanded drift into more socialism, with social out casting if you do not
- Restriction on groups of people – already happening but can be increased believe it or not. But again, less authority driven and more socially driven
- The paying off of Human Karmic debt
- More and more restriction on information technology
- More structured universal living

HIGHER MANIFESTATIONS OF THE GREAT CONJUNCTION IN AQUARIUS 2020

- More awareness of Humanity and others
- Greater sharing of knowledge and wisdom
- Working with others, especially with technology
- A shift away from authority-based control to more community based – especially relevant when Pluto moves into Aquarius. We could almost say this is a preparatory period to that
- Increased love, increased wisdom – Ray 2 and Jupiter – with greater and sustained awareness of all of Humanity. This is awareness, not forced awareness
- An ushering in of a period of brotherhood, in true Aquarian spirit

SIGNIFICANT TRANSITS OR THINGS TO CONSIDER IN 2021

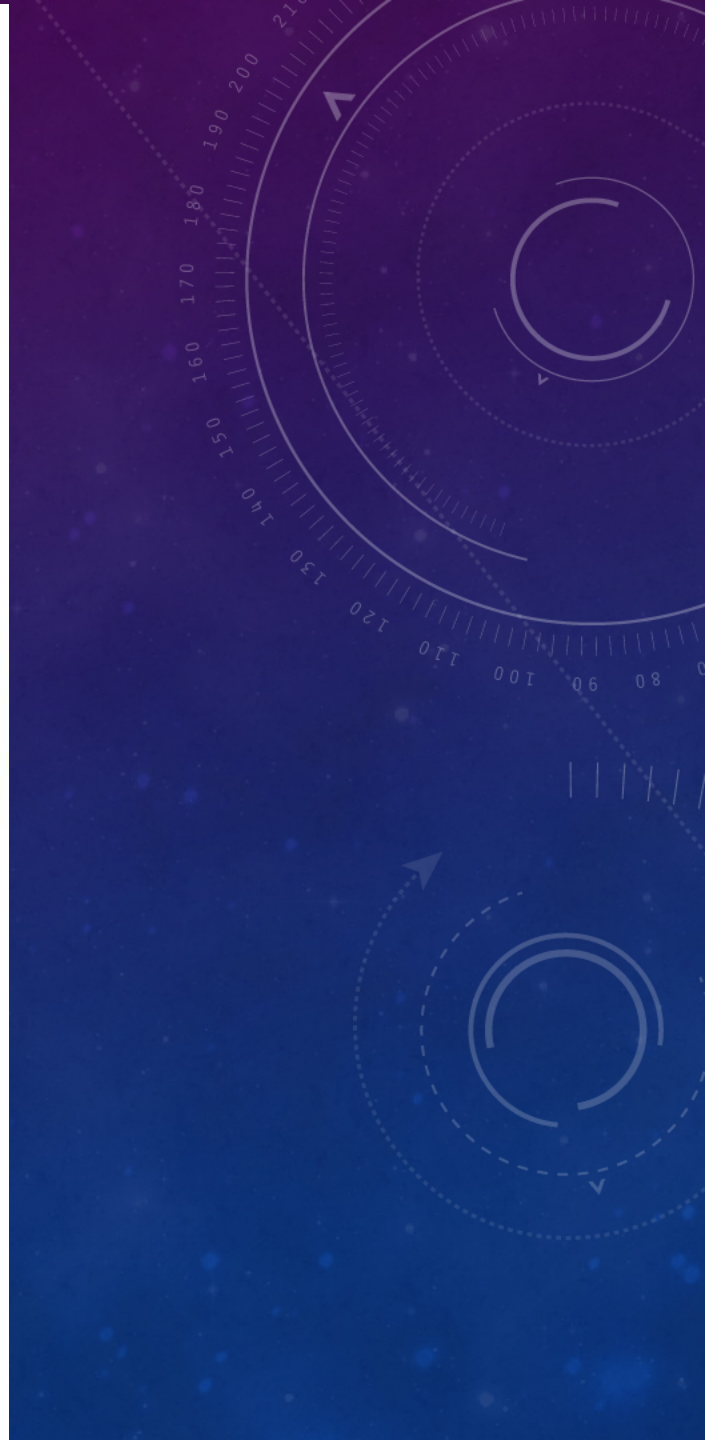

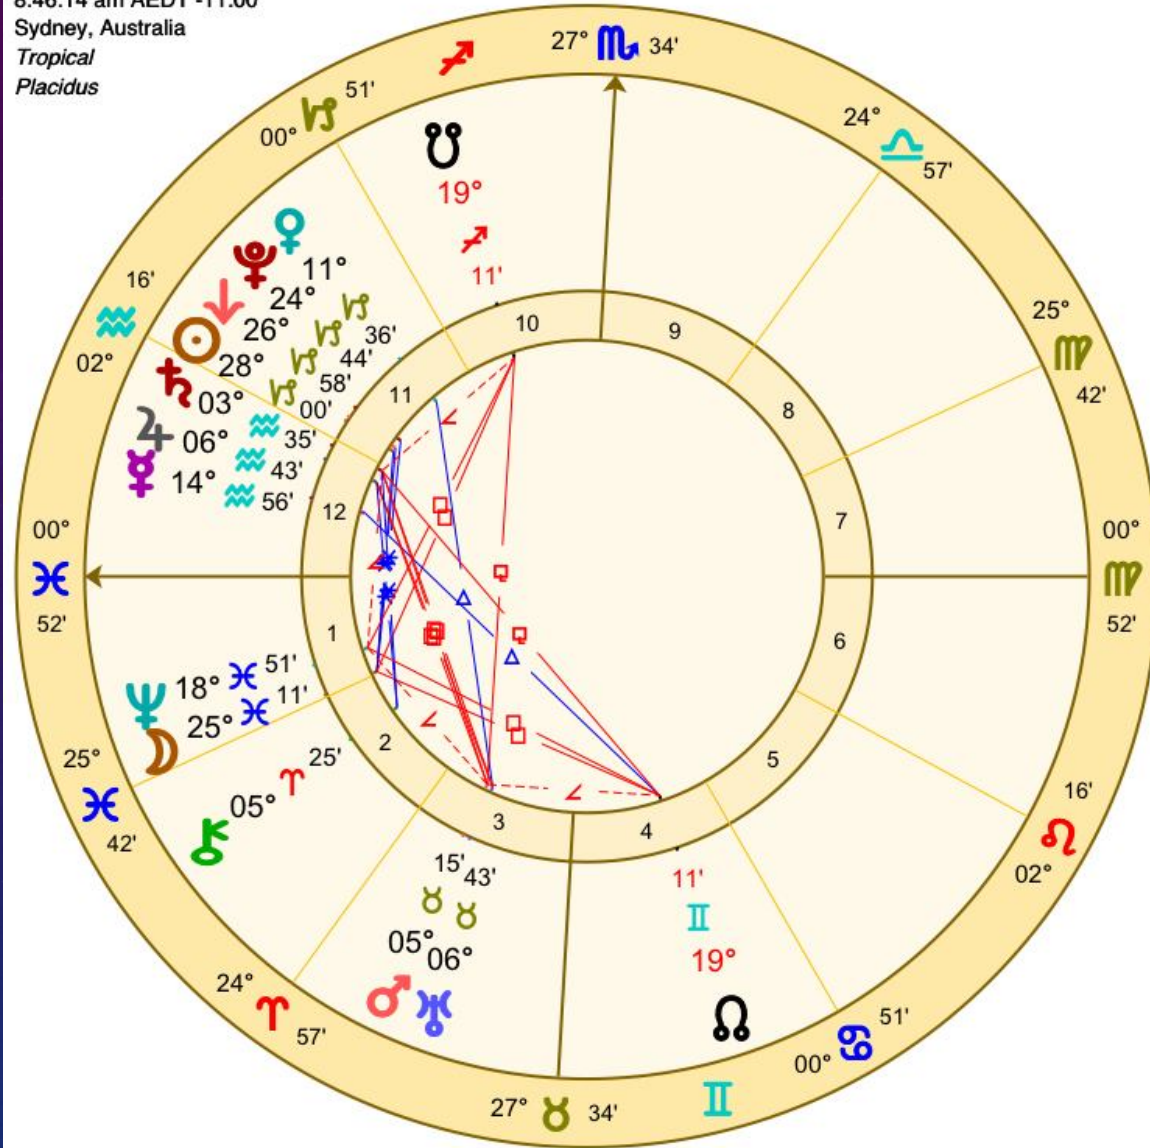

Uranus in Taurus conjunct Mars – squares Jupiter in Aquarius conjunct Saturn - 18th of January onwards

- Inauguration day is the 20th of January normally
- One can only think that this will be some huge change, involving law – Jupiter and Saturn – with new incoming change and perhaps revolution (Uranus) backed by the push and drive of Aries
- Can be new laws ushered in, especially around money, security, stability etc
- Expect very sudden changes, sometimes massively exaggerated
- Jupiter and Mars moves on quickly and by the 19th of February – Uranus is only squaring Saturn. This continues throughout all of 2021 really, before eventually Saturn moves far enough away in March 2022. By August 2022 they are back within 2 degrees before Saturn begins to move away towards the end of 2022
- Uranus squaring Saturn is very much about the need to balance rules, restrictions, responsibilities with the need to be free, to choose, and this case, the right to have a living (Taurus) while maintaining responsibility to the greater community (Aquarius)

URANUS IN TAURUS

Anchoring the new ideas that were initiated with Uranus in Aries. We are literally seeing those ideas become manifest before our eyes

Lower level manifestation –

- manipulated planning, the ushering of schemes and ideas long thought up
- The use of change and peoples need for change in a negative and destructive way

URANUS IN TAURUS – MANIFESTATION OF THE PLAN

Higher level manifestation -

- Anchoring of a Higher plan into Humanity, from the Masters, or beings of Light
- Uranus in Aries is where the True Hierarchy, not its lower form, planned together for the next immediate cycle and begun and lit the initiatory spark for Their plans
- Moving into Taurus sees an anchoring of those plans. It also showed us the plans of dweller on the threshold

JUPITER AND NEPTUNE – A SPIRITUAL ADVENTURE

- Jupiter moves into Pisces on the 14th of May – 2021, after only 6 months in Aquarius.
- He stays there until the 29th of July before retrograding backward into Aquarius until the 29th of December....
- I expect that time frame to be a very open and spiritual time. Jupiter is co ruler of Pisces and the other ruler – Neptune, is currently travelling in Pisces until 2025-2026.
- This should be a great window, as well as at the end of this year, to be open to spiritual Truth and impression. Both co rulers in Pisces, which has not happened since 1856....

MERCURY RETROGRADE PERIODS – INTELLECTUAL ANALYSIS

This year, all in Air signs, which is interesting as we normally associate the retrograde period with communication, networks, the grid etc anyway

- 1st one Jan 31 – Feb 22 in Aquarius –
- 2nd one May 30 – June 23 in Gemini
- 3rd one Sept 28 – October 24 in Libra

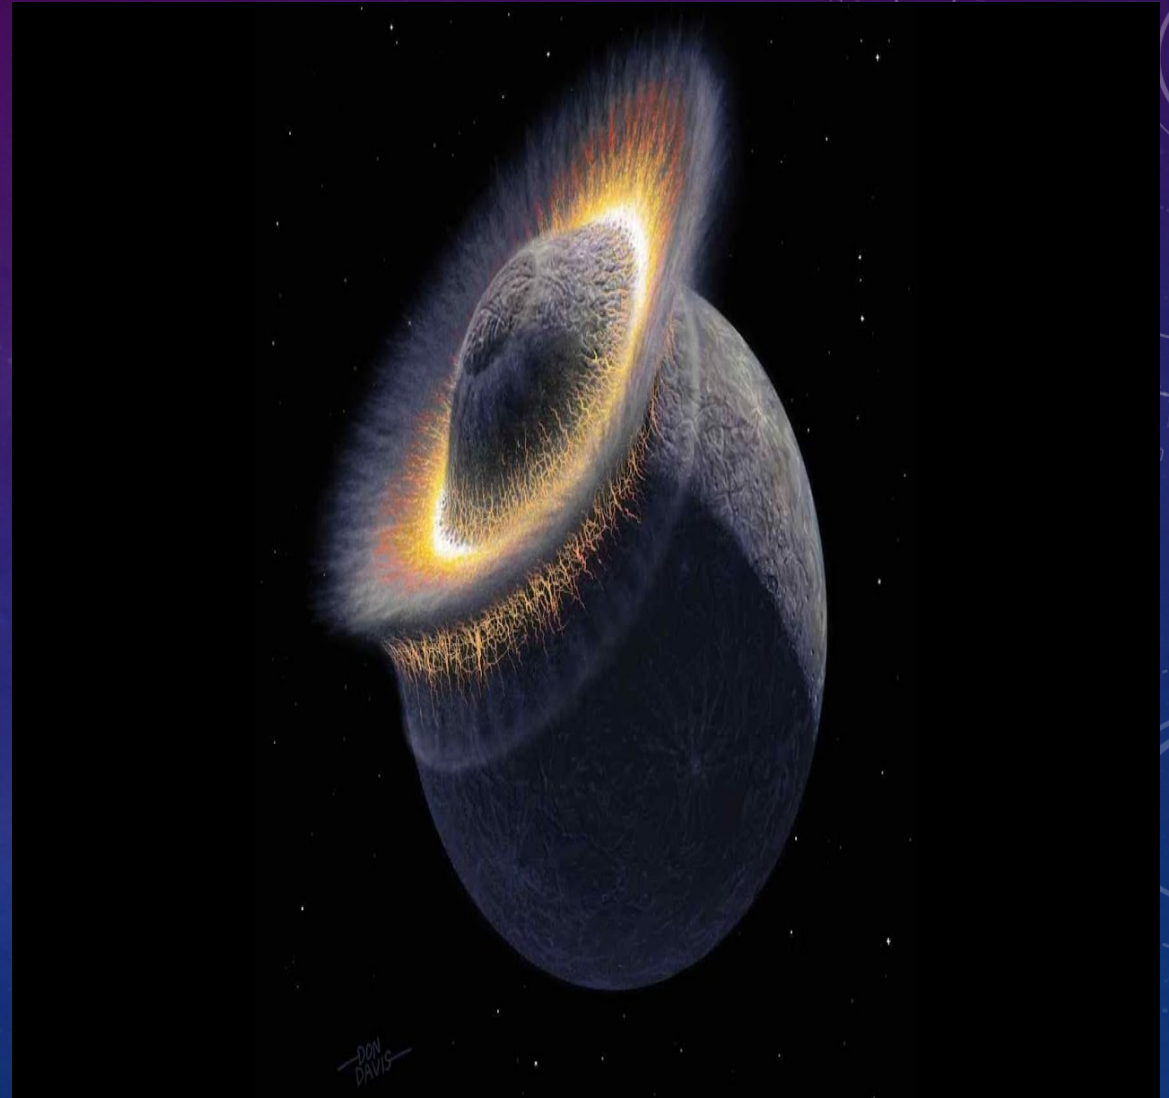

- Double effect as all in Air signs

PLUTO IN AQUARIUS – POWER TO THE PEOPLE

I think that much of what is happening at the moment is a lead up into 2025. Before that though, Pluto first moves into Aquarius in 2023 and then for many years from 2024. I see a massive power shift, moving from power given to authority and current structures (Pluto in Capricorn) to power to the people. I think the following might happen in the next few years, regardless of what our governments or those of an authoritarian type of power might do or say to fight it

- Increased community-based leadership
- A push for less corporate control and much more transparency around the dealings of both corporations and governments
- People claiming back their power, understanding strength in numbers and an increased involvement in decision making
- A move towards more community-based living, including markets, and self sufficiency
